SOMETHING PERSONAL

TWO PEOPLE, ONE DREAM

The Magrette founder - Dion McAsey - and myself connected for the first time when I was co-ordinating a small group purchase of Magrette watches for fellow members of the dutch leading watch forum "Dezinvanluxe.nl".

Many emails between us followed and it quickly appeared we had plenty of common ground to walk on. We shared our passion on watches and discussed in depth about the Magrette brand potential, existing and future products and the underlying business plan.

Our personal contact finally led to establishing the first overseas distributor for Magrette timepieces and accessories. The newly established company "Magrette Timepieces Europe" will be taking care of the sales and marketing of Magrette branded products in The Netherlands, Belgium, Luxembourg and Germany on an exclusive basis.

Dion and myself will be operating in a true team spirit to take the Magrette brand and business one step further while staying close to our shared principles: a challenge we both embrace.
