NEWS

On this page you will find relevant news about Magrette and it's products. Would you like to stay informed about the latest news, please leave us your name and email address under the "news letter" heading.

You will then receive a newsletter maximum once a month with the latest news, special offers and invitations for pre-orders. Ofcourse unsubscribing is easy with the help of a link at the bottom of each newsletter. You can pre-view the archive with sent news letters on THIS page.

We respect your privacy and will not share, rent, sell or otherwise hand over your data to third parties.

July 2008

We will introduce a new model variation of the Regattare model soon. It will have the following special specifications:

- Swiss ETA movement (automatic mechanical)
- Case with gun-metal grey PVD coating (toughens the surface and gives a special look). This layer is applied by our specialized partner in Switzerland.
- Special hour- minute- and second hands.
- Rear side with glass bottom, that does not show the movement, but a 45,000 year old piece of Kauri wood that is unique to New Zealand. In the Kauri wood, each watch' unique number is visible.
- Brown leather, or black nylon (kevlar-look) strap.

Some pics (indicative only, proto-type does not show correct hands and backside):
